ecoTuft® Green Worldsapes™ Collection

Valley View, Good Earth, Hillside Roads

To Market® presents the ecoTUFT® Green Worldsapes™ Collection featuring High Recycled Content Antron® Legacy Nylon. Our entire series of Environmentally Preferable Fibers have been certified by Scientific Certification Systems and are eligible to participate in the U.S. Green Building Council LEED™ Rating System.

ENVIRONMENTAL BENEFITS

- Manufactured utilizing environmental safeguards including reclaimed water in the dyeing and manufacturing process
- Low volatile organic compounds (VOC's)
- Contains recycled content
- To Market accepts products at the end of their life to be reused and recycled in an effort to cut down on landfill waste and reduce the demand on natural resources.

LEED® INFORMATION

Materials & Resources- This product can contribute to attaining a point in the Materials and Resources credit for Recycled Content.

Environmental Quality- Exceeds the Carpet & Rug Institute 'Green Label Plus' specifications for low VOC's, thereby meeting the LEED requirement for Low-Emitting Materials: carpet. In addition, the recommended adhesive meets SCAQMD Rule #1168 as required by LEED in EQ credit 4.1.

ADDITIONAL BENEFITS

- **BIOBAK™** - In addition to the standard enriched latex backing, FUSION™ Commercial Carpet offers two different types of high-performance polyurethane backing products. Both of these backings are environmentally responsible and the non-woven secondary backing is made of 100% post-consumer materials such as recycled soda bottles.
- Does not support fungus growth or mold, resistant to mildew and passes British Spill Test (moisture barrier)
